

Funded Trader Program

  
**AUDACITY**  
CAPITAL

As seen on

*“Our aim is to attract and retain the best traders in the industry, helping our traders to realise their full potential and achieve financial success and satisfaction”.*

*Karim Yousfi  
AudaCity Capital CEO*

AudaCity Capital has a world-renowned reputation for funding and backing profitable traders, we have always considered ourselves to be at the cutting edge of our industry.

We trade on all major asset classes on multiple exchanges with our own capital, and do not handle any client's funds or have any customers.

By becoming a member of our team, you will become part of our success.

We are market leaders because we have always had an internal vision to promote a strong entrepreneurial working culture!

With a deep understanding of the market, we believe that the only way to be a winner in our industry is to invest heavily in talented people who want to grow together with us.

## WE INVEST IN TALENT

As People's Firm, we invest in people. we are looking for like-minded, talented individuals, seeking to grow their skills and enhance our trading performance with our proven team of professionals.

## Funded Trader Program

AudaCity Capital has a world-renowned reputation for funding and backing profitable traders. If you have the talent and know how, we will provide you with the necessary funding, shaping your future.

If you are a successful trader, ambitious with proven trading strategy who is looking to move to the next level, then our Funded Trader Program is exactly what you're looking for!

In today's economic uncertainty, we understand fully that a career in Trading with banks and financial institutions are few and far between.

We truly believe that the next generation of superstars in this field will come from the retail environment.

And they're going to be people just like you We are looking for talent and can offer in return:

- Fully funded trading account.
- Big profits 50-50 % profit split.
- A network of supported trading.
- We double the size of the trading account every time you reach a 10% target.

What is required of you in order to be considered for the Program - you must:

- Have the ability to manage leverage consistently.
- Drawdowns must be under 10%.
- Risk-reward ratio as determined by the Sharpe ratio consistent profitability.

*Each time you achieve 10 % target, we double for you the size of the account and the risk, we've got some traders that started with 15K and now they are managing 500K trading account.*

## Your Book

All traders start with a \$15,000 trading book, regardless of their background, experience or track record. We give all our traders an equal opportunity to prove themselves as profitable traders.

Your target is to achieve 10% of the initial equity, there is no duration for this. Once you hit 10% we then split the profits 50/50 and double the size of your account. So you will receive pay -out and account growth within 24 hours.

Our own internal risk parameters must be followed by each trader. This forces the trader to develop real trading skills and to rely on those skills rather than rely on lady luck. Traders unable to follow guidelines are an unacceptable risk within our business model.

### **The risk parameters are as follows:**

Orders at stage 1 are capped to a max 0.5 lots. This means the maximum exposure is 0.5 lots accumulative at any one time. For example you can have 1 position at 0.5 or you can have 5 positions at 0.1. It's up to you how to spread to the risk. When your account is doubled your risk allowance is doubled as well i.e on on \$30,000 your maximum lot size is 1, on \$60,000 your maximum lot size is 2 lots etc.

Total drawdown limit is 10%. we must stress it's highly unlikely this will happen, but for arguments sake let's say it does, you are not liable for losses, so you won't owe the company any money.

The drawdown is absolute drawdown, not trailing drawdown.

*As a firm, we're relentlessly focused on developing a long term relation with our traders by providing them with best environment to prosper and perform.*

## Funded Trader Policies and Guidelines

Our platform operates according to a defined set of policies and guidelines, which are in place to safeguard traders and our business alike.

All remote traders must abide by these policies, which are defined by the Head of trading. If you fail to do so, we will immediately withdraw you from the Program.

### Compensation

As a funded trader, you will be compensated according to a profit split basis. This means that you'll keep 50% of your profits when you've reached a 10% target.

### Notes on Payouts

There is no time limit on your 10% mark target, and once you start to trade you will receive payouts every single time you hit that target! and your account get doubled.

### Our Fees

We're happy to take risk and invest capital, however we are not happy to cover the running cost of trading, since we are sharing with you a 50-50 profit, we'd like you cover some of our trading expenses we've got to pay for: technology, data, platforms, admin...

Therefore, we charge a **one off** joining and administration fee of £199, which must be paid before you begin trading, and each month we also charge a monthly platform fee of £99, which must be paid at the start of each month.

**Please note those fees are not for us to make profit but to cover our trading costs.**

*We treat all people with respect and kindness. That's how positive long term relationships are build and mutual trust is made.*

## Trading Parameters

Weekend positions are subject to approval by the Risk Managers. If you wish to hold a trade/trades over the weekend, you must submit an email requesting permission to do so.

The Risk Managers will look into the position/positions. If they believe it's safe they will keep it open, if not then they have the right to close your positions/positions by Friday 6PM GMT.

Positions must be closed during major news events such as NFP, Interest rate decisions and Central Banks Speeches. For example, let's say we have the Bank of England Rate Decision followed by a BOE Chair Speech, then all GBP exposure must be closed 30 mins prior to the news. GBP positions can then be reopened after the speech is over.

Another example, for NFP all USD positions (major currency pairs) must be closed and can be reopened after the figure is released. So only currency pairs correlated to the news event must be closed.

## OUR TRADER'S TESTIMONIALS

*"What I like about AudaCity Capital is they're traders like myself, they understand my needs to achieve good returns, I really like their deep liquidity and fast executions, and tight spreads. I wish I would have such good institutional service for my own personnel account!"*

**Ian W. (UK, Managing 190K)**

*"Trading with AudaCity Capital Funds give me the opportunity to improve my trading and discipline, and increase my income as trader, what I made as profit with them I could never achieved it by myself".*

**Kasra. K (Canada, Managing 80K)** Watch full interview
